designs, sizes which may be clasping or clasping onto teeth or dental implants.

**Can you get dentures that look like real teeth?**

Cosmetic dentures look more like real teeth, by their very nature. They're called cosmetic because they're intended to make your smile look beautiful. Cosmetic dentures also tend to feel much more natural than other denture options. They'll fit naturally in a person's mouth to help them chew and speak efficiently.

**Available hospitals**  
You can request quotation from the listed hospitals

Dentistry

False teeth

### What is False teeth?

Dentures (also known as false teeth) are prosthetic devices constructed to replace missing teeth, and are supported by the surrounding soft and hard tissues of the oral cavity. Conventional dentures are removable. However, there are many denture designs, some which rely on bonding or clasping onto teeth or dental implants.

### Can you get dentures that look like real teeth?

Cosmetic dentures look more like real teeth, by their very nature. They're called cosmetic because they're intended to make your smile look beautiful. Cosmetic dentures also tend to feel much more natural than other denture options. They'll fit naturally in a person's mouth to help them chew and speak efficiently.

**03-Sep-2021**

Telemedlab project require / add on services / features on existing module

We would like to add ..few more features.

Find below the requirement for the same

1. Hospital module - separate web page shall come for hospitals digital marketing type .hospital name and address , what facilities provided in that hospital, procedures marketing , and if we click on that hospital AI the doctors shall appear with whom we can book prior clinic and video consultation basis

These hospitals can be sorted out by in the top search engines by .

It's location

By doctors

By procedures ( medical / surgical)

By facilities available

2. Emergency **ambulance** services

Shall able to open a separate webpage for **ambulance** from web or mobile app home page ..and it shall auto assign the nearest available **ambulance** from geo tag ( live track the to the hospitals and to the accident area or from where the **ambulance** has booked )which is already existing in out website and mobile app for E pharmacy .

3. Shall add few plugins to the already developed E pharamacy and E laboratory modules to our existing website

They are

a. As of now all the pharmacy and laboratory orders are place from users app / website but

We require even vendors of pharmacy and lab shall able to place the orders Manually from the admin we are providing them

Labs/ medical laboratory shall able to send the report to customer phone number WhatsApp through already developed Admin

Auto assign ( geo tag ) like for our pharmacy ( shall able to book the nearest available laboratory and deliver which is already existing for our E pharmacy , but we are willing to as this in to our E laboratory also

Reference mobile app and website for better understanding

<https://shopdoc.in/clinics> ( for hospital module)

<https://shopdoc.in/medical-procedures>( for hospital module)

**05-Aug-2021**

1. Reduce the Duration of each type of Appointment / consultation to a default of 5 minutes gap ( present default is set to 15 minutes ) ,

Required default is 5 minutes for all type of consultations

Similar to

5 minutes, 10 minutes, 15 minutes, 20 minutes, 25 minutes, 30 minutes etc

Find the screen shot for better understanding.

08:55

← Services

**Home Visit** Active ☒

Appointment charge ₹ 100

Follow-up Charge ₹ 10

Cancellation Charge ₹ 30

Timing Slot Duration 30 Mins

Navigate to this tab to quickly book an appointment and the doctor will come to your home at your chosen time.

**TIME CHANGE**

15 Mins	<input type="radio"/>
30 Mins	<input checked="" type="radio"/>
45 Mins	<input type="radio"/>
60 Mins	<input type="radio"/>
75 Mins	<input type="radio"/>
90 Mins	<input type="radio"/>

**SAVE CHANGES**

Update the following technical correction in Telemedlab Doctors module

**1. While Any users/patients booking Appointment with Any specific Doctors**

The appointment timing ( time ) available for patients with specific doctor who has scheduled his Available timings for his consultations, there is minimal 3 hours gap has been set as default by Emedstore,

between time at which patients starts booking and doctors available time

Example ; as of now iam typing this mail and sending you this mail at morning 8. 39 am on 05/08/2021, now I would like to book the appointment immediately, but even though my doctor is available in his schedule right now at 8.45 am I am not able to book his appointment his available timings starts at 11: 00 am

So set the default gap between the time of patients booking and doctors available things to zero, so any wants to book appointment can book with specific doctors on real time basis, immediately,

Kindly find the attached screen shots for better understanding.

### **1. iOS app rejected:**

5. 1.1 Legal: Privacy - Data Collection and Storage.

(Dev.Comment:Done(iOS))

### Guideline 5.1.1 - Legal - Privacy - Data Collection and Storage

We noticed that your app requests the user's consent to access the location, but doesn't sufficiently explain the use of the location in the purpose string.

To help users make informed decisions about how their data is used, all permission request alerts need to specify how your app will use the requested information.

#### Next Steps

Please revise the relevant purpose string in your app's Info.plist file to specify why your app needs access to the user's location. Make sure the purpose string includes an example of how the user's data will be used.

You can modify your app's Info.plist file using the property list editor in Xcode.

#### Resources

- See examples of [helpful, informative purpose strings](#).
- Review a list of [relevant property list keys](#).

Please see attached screenshot for details.

**28-Jan-2021**

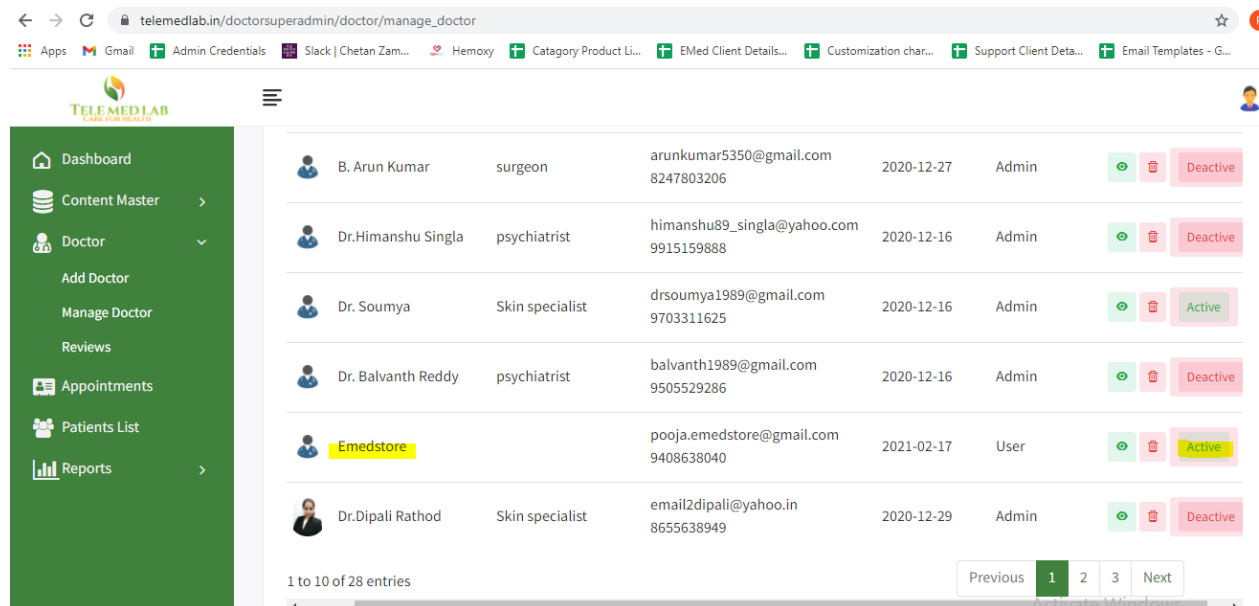

Reference to earlier mail on 27 th January 2021, regarding bugs fixation/correction and Doctors sign up ,registration ,still few corrections/modification required

1. give us demo for the Blog writing section while drafting a Blog how can we add images/pic, jpg and png formats from browser/any other source

2. Also give us Demo ,how Doctors sign up ,registration done through approval from Doctors superadmin, as of our knowledge we cannot find the link you have mentioned in the Doctor superadmin ,

**Support comment :** From doctor app doctor can register themselves after entering the required details and will be notified that once the account is active you will be notified.

Under Doctor super admin you will receive the request to activate the same as shown below.

The screenshot shows a web application interface for managing doctors. The browser address bar displays 'telemedlab.in/doctorsuperadmin/doctor/manage\_doctor'. The left sidebar contains a menu with options: Dashboard, Content Master, Doctor (selected), Add Doctor, Manage Doctor, Reviews, Appointments, Patients List, and Reports. The main content area displays a table of doctors with the following columns: Doctor Name, Specialization, Email, Registration Date, Role, and Status. The table lists seven doctors, including B. Arun Kumar, Dr. Himanshu Singla, Dr. Soumya, Dr. Balvanth Reddy, Emedstore, and Dr. Dipali Rathod. The 'Emedstore' entry is highlighted in yellow. At the bottom of the table, it indicates '1 to 10 of 28 entries' and includes pagination controls (Previous, 1, 2, 3, Next). An 'Activate Windows' watermark is visible at the bottom right of the screenshot.

Doctor Name	Specialization	Email	Registration Date	Role	Status
B. Arun Kumar	surgeon	arunkumar5350@gmail.com 8247803206	2020-12-27	Admin	Deactive
Dr. Himanshu Singla	psychiatrist	himanshu89_singla@yahoo.com 9915159888	2020-12-16	Admin	Deactive
Dr. Soumya	Skin specialist	drsoumya1989@gmail.com 9703311625	2020-12-16	Admin	Active
Dr. Balvanth Reddy	psychiatrist	balvanth1989@gmail.com 9505529286	2020-12-16	Admin	Deactive
Emedstore		pooja.emedstore@gmail.com 9408638040	2021-02-17	User	Active
Dr. Dipali Rathod	Skin specialist	email2dipali@yahoo.in 8655638949	2020-12-29	Admin	Deactive

Edit

3.We have noticed few changes in the existing Doctors Superadmin , that while adding New Doctors IN THE PROFILE we are not able to EDIT/ENTER THEIR, CLINIC DETAILS, EDUCATION DETAILS, EXPERIENCE DETAIL AWARD DETAILS , Which were existed previously, so ADD THESE FIELDS AS PREVIOUSLY IN THE DOCTORS SUPERADMIN , because we would like to have a user friendly experience to Doctors, so we can add this details through our data management team, for doctors ,who will be doing agreements with our marketing team , everytime we cannot expect that all doctors will become part of our company through mobile app doctors d sign up process

**Support comment :** As checked we have provision for adding clinic details from super doctor admin. Rest Education details, experience details, award details will only be added from Doctor admin. So you can still add the doctor from doctor super admin with required details as displayed there and rest information doctor admin can add from their portal.

4. Add a few more details for doctors while signup/registration along with their mobile number, mail id, username password etc...

**Support comment :** While doctor registration through app Mobile number, Mail id, Username & password option is already available.

add these/below fields as compulsory/optional while registration /signup along with present requirements

1. Clinic details of present practice( optional)
- 2 .Highest Degree achievement registration number(optional)
- 3.contact details (Residence address) (compulsory)
- 5.Date Of birth(compulsory)

**Support Comment :**As agreed earlier we have provided the doctor sign up option accordingly.

a. Clinic details of present practice( optional) : For now we do not have this option.

b.Highest Degree achievement registration number(optional) : Doctor can add the degree details under education details, but we have not added registration number.

c.contact details (Residence address) (compulsory) : From doctor admin they can add the address under contact details.

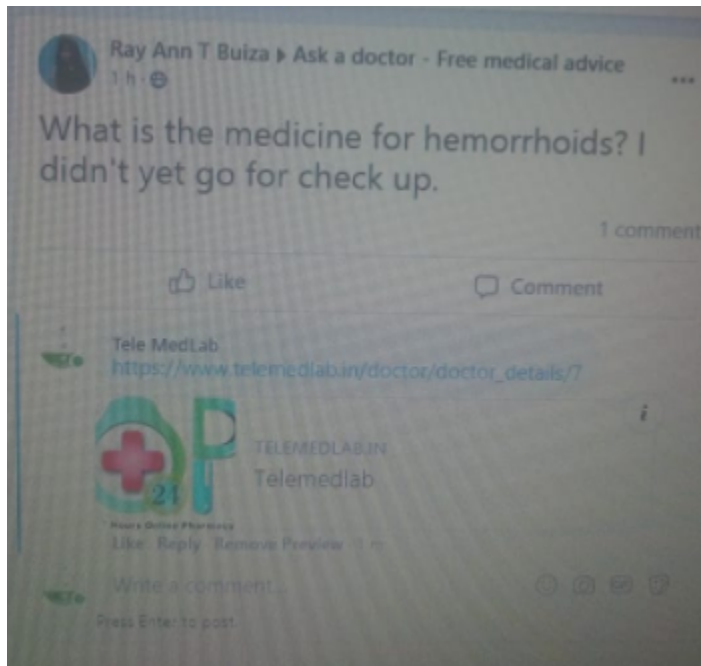

d.Date Of birth(compulsory) : From doctor admin we have an option to add the D.O.B

-----**Below points are done**-----

**16-Jan-2021**

1. When we paste our link below Facebook comments it showing some other company logo(**Dev.comment : Done**)

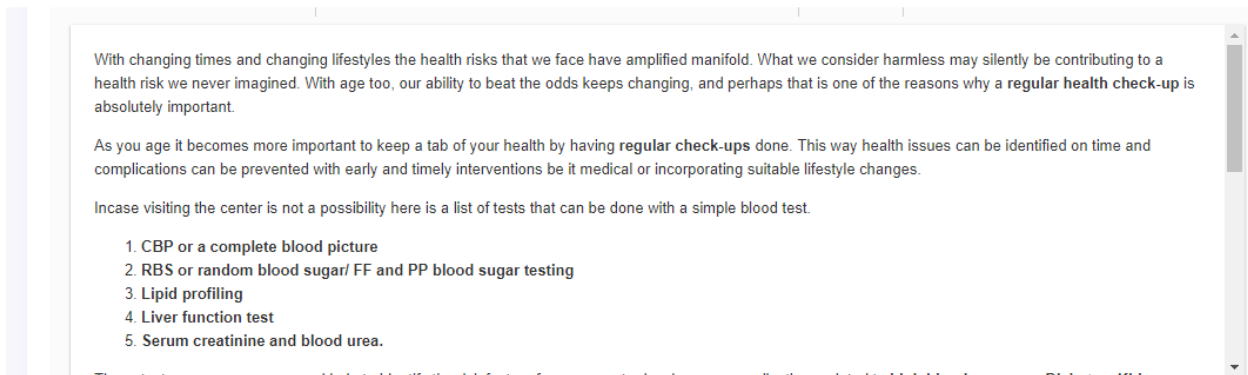

**11-Jan-2021**

A.Blog : The bullets and the numbers list is not getting recognized or displayed at user end. **(Dev.comment : Done(Android,Web))**

Telemedlab

With changing times and changing lifestyles the health risks that we face have amplified manifold. What we consider harmless may silently be contributing to a health risk we never imagined. With age too, our ability to beat the odds keeps changing, and perhaps that is one of the reasons why a **regular health check-up** is absolutely important.

As you age it becomes more important to keep a tab of your health by having **regular check-ups** done. This way health issues can be identified on time and complications can be prevented with early and timely interventions be it medical or incorporating suitable lifestyle changes.

Incase visiting the center is not a possibility here is a list of tests that can be done with a simple blood test.

- 
- CBP or a complete blood picture
  - RBS or random blood sugar/ FF and PP blood sugar testing
  - Lipid profiling
  - Liver function test
  - Serum creatinine and blood urea.

~~B-The image that was uploaded (royalty free images from Pixabay) was not uploaded at all despite multiple attempts.~~

~~<https://www.telemedlab.in/blog/details/19>~~

~~**Support comment :** It will support png or JPG files.~~

## 2. ADMIN -SUPER LABS ADMIN SECTION -IN THE SETTINGS-CANNOT EDIT DETAILS-PHP ERROR(Dev.comment : Done)

The screenshot shows a web browser at the URL `telemedlab.in/labsuperadmin/settings`. The left sidebar contains a menu with items: Banner, Category, Labs, Assign test to Labs, Lab Test, Combined Lab Test, Packages, Offer Section, Reports, Lab Test Order, Promotional, Settings (selected), and Manage. The main content area displays the 'Admin Email' section with a text input field containing `<div style=`. Below this, a PHP error message is shown:

A PHP Error was encountered

Severity: Notice

Message: Undefined offset: 0

Filename: settings/index.php

Line Number: 37

Backtrace:

- File: /var/www/html/application/modules/labsuperadmin/views/settings/index.php  
Line: 37  
Function: \_error\_handler
- File: /var/www/html/application/third\_party/MX/Loader.php  
Line: 357  
Function: include
- File: /var/www/html/application/third\_party/MX/Loader.php  
Line: 300  
Function: \_ci\_load
- File: /var/www/html/application/modules/labsuperadmin/controllers/Settings.php

Line: 315  
Function: require\_once

## 3.WEBSITE —Extra promotional icons LABORATORY TEST. and HEALTH CHECK UP was removed but still it appears on the website.

**Already Done**

The screenshot shows the 'Lab Promotional Manage' page. At the top right is a button labeled '+ ADD PROMOTIONAL'. Below it is a table with the following data:

Sr No	Title	Promotional Type	Action
1	Health Packages	Packages	
2	Labs	Labs	
3	Combined Lab test	Tests	

Below the table, it says 'Showing 1 to 3 of 3 entries'. At the bottom right, there are navigation buttons: 'Previous', '1' (selected), and 'Next'.

4. USERS MOBILE APPLICATION- ADD PROMOTIONAL ICON BY NAME HEALTH PACKAGE IN HOME PAGE OF THE MOBILE APP LIKE IN WEBSITE HOME PAGE is not visible.(Dev.comment : Done(Android))

5. CANNOT SHARE THE BLOGS TO SOCIAL MEDIA PLATFORM, WHILE TRYING ONLY IMAGE OF PARTICULAR BLOG IS SHARED , ADD WHATSAPP AS SHARING OPTION FOR BLOGS BESIDE SOCIAL MEDIA PLATFORM(Dev.comment : Done(Android,Web) Note: can not add whatsapp sharing option)

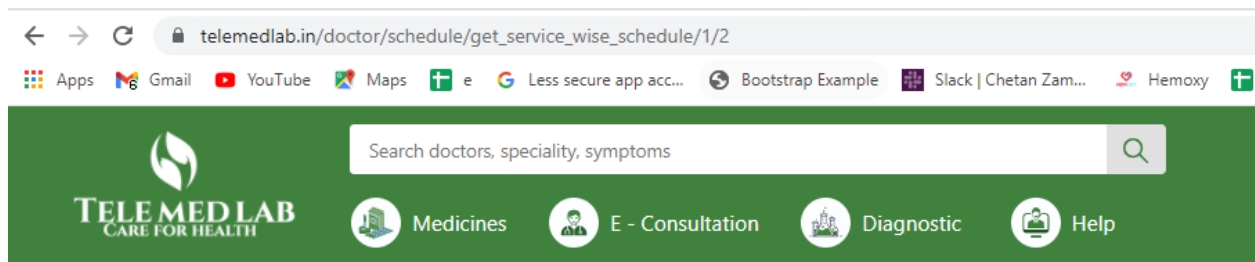

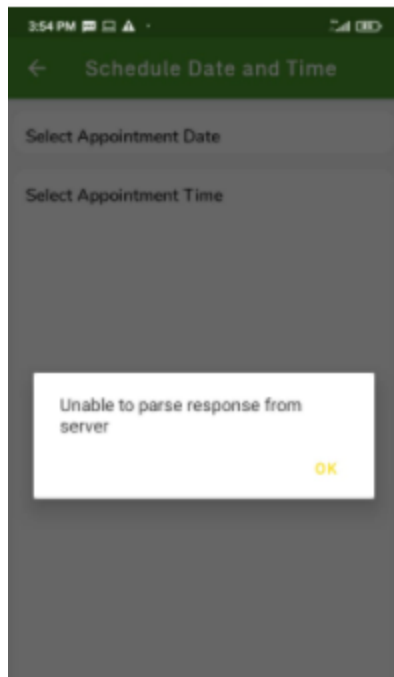

6. **Doctor Sign up** : For doctor registration through app as check with the team they will simple register using their email, mobile , name basic details and will get a email notification somewhat like once the registration is confirmed will update you.(Dev.comment : Done(Android,Web))

so the same request will be received by the admin. they need to contact the doctor for getting other details and then after admin approval they can login

-----

## 28-Dec-2020

1. App & website : Doc app showing error PHP while booking appointments(Dev.comment:Done(Android))

#### A PHP Error was encountered
